Time flies and our high developed digitalized society changes every day, even every second of the day. So all we only need, is ' flexibility ' you shall say. But you as Managing Director will certainly not agree with it.

ANOTHER SIDE OF LIFE

Together with other Managing Directors you are very welcome to look into the kitchen of the artist and sculptor Ben Wijnen for only five days. During this Masterclass, you will learn, besides your managementskills other personal talents other than you already have. What does this mean?

First of all you will be invited to be 'an artist' too. By experience, you will discover what it practically means to make a drawing or painting and you will discover how many decisions have to be taken, before your painting has been finished into a good artwork. Decisions especial *made by your heart*. While working for maximum three hours a day, there will be individual and also groupsreflections 'on the right moment and on the right place' to give your artworks more personal identity. Of course there will be time to relax in the beautiful surroundings of Guesthouse Locande al Colle, a toplocation in Tuscany, even to do excursions.
